What is CrewCare?

- CrewCare is a volunteer not- for- profit organisation wanting to improve the care for all workers in the production industry.
- CrewCare is run by crew for crew and was started by industry veterans who felt that the often overlooked crews needed someone to look out for them
- CrewCares aim is to look after the welfare of not only crew but also the family of crew that may have been affected by the adverse effects of working in a highly stressful Industry
- Crew Care works closely with Support Act to ensure it gives it members the best support possible

Services.

Support

Our social support services foster a sense of unity and purpose amongst all crew by providing open channels of communication and holding regular get-togethers and events. We are mindful that partners and family are pivotal to our members' wellbeing and encourage participation as a family unit, whilst also referring support services for family members in times of crisis or need.

Fundraising

CrewCare is establishing exciting, alternative avenues to raise funds and assist those in crisis. Our projects and public events not only provide much needed funding, but also lift the profile of crew and highlight their core issues. CrewCare engages live production crew from all age groups and recognises that hosting vocal and successful nationwide events has a broad scope of appeal.

Advocacy

CrewCare acknowledges there are already some well-established organisations that broadly encompass and represent the live production sector. We have built many valuable relationships with peak industry bodies nationwide and collaborate with them to achieve our goals by bringing greater awareness to the issues presented and encouraging further action.

Education

CrewCare acts as an information and educational hub to advance the health & wellbeing of production crew. We collaborate with industry specialists to implement educational programs designed to help crew develop self-awareness & monitor their mental wellbeing and physical health, recognise the warning signs and understand ways to deal with issues that can sometimes arise.

Programs CrewCare has run in the past.

Crewcare are proud to officially partner with Support Act. The two organisations have embarked on a close and ongoing relationship, ensuring our like minded objectives are consolidated in a united approach to all aspects of crew welfare. If you want any more details on any of these programs please get in touch and we can send you more information.

- Support Act provides direct financial support for crew members experiencing financial hardship' with our assistance

What does 2023 look like so far?

CrewCare has amassed a network and social media presence of over 17,000 and continuing to grow throughout this year. 2023 has seen some big changes in CrewCare with a new Chairman and 5 new members joining the board. There has also been a restructure within the board itself with new committees being formed and some older ones merged. These are the key aims CrewCare has for 2023....

Re-engage with current members and remind them of the programs and support available to them via CrewCare.

Increase members throughout Australia with a industry wide 'marketing' campaign and possibly run a single CrewCare Membership Drive Day.

A key focus here will be to communicate that CrewCare is for ALL CREW in the music industry no matter what field you work in.

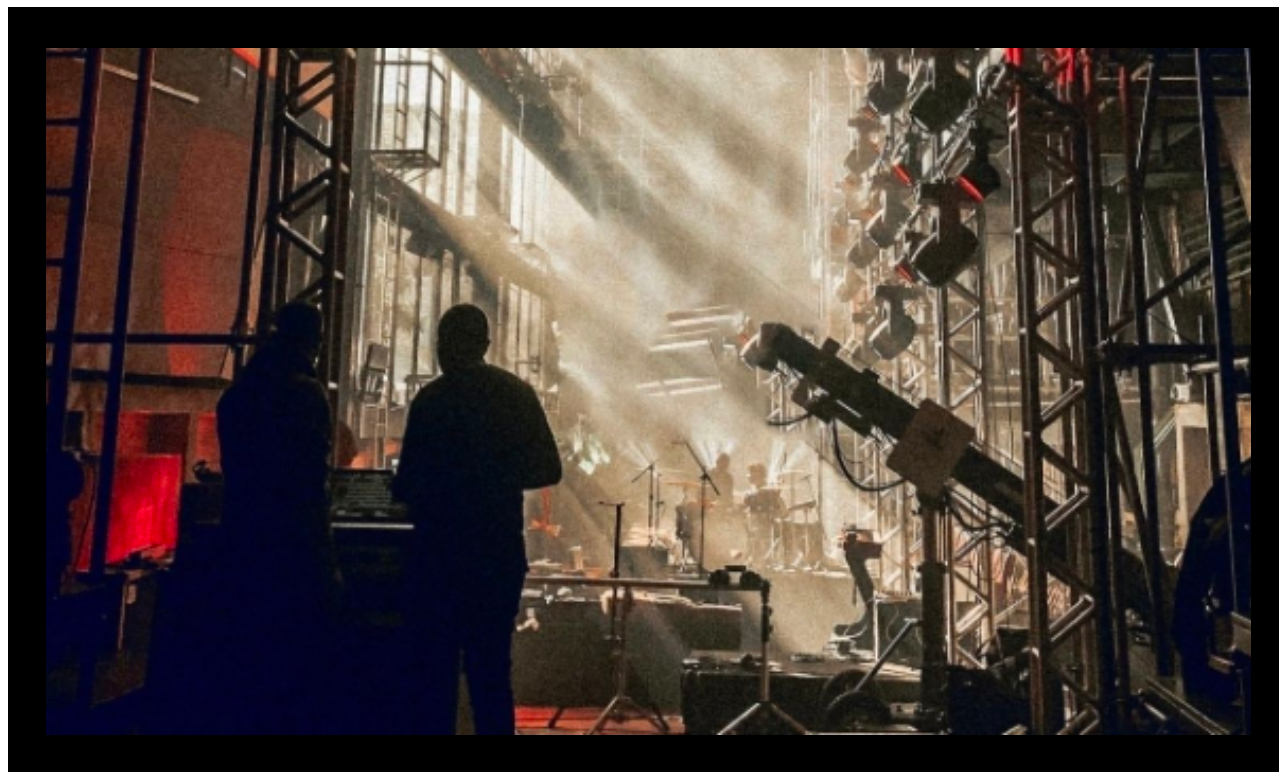

Ensure there are social events in all states to build the CrewCare community.

Continue to bring new people into the industry via continued growth in education via scholarships and/or industry awareness programs.

Develop deeper engagement with the industry as a whole to continue the aims of CrewCare, this is where you come in.

How to get involved with CrewCare.

Whilst money is always appreciated we are looking for industry partners that genuinely want to look after the interests of the crew we all rely on. Some thought starters are included here but we are very open to any and all ideas from any organisation that wants to help;

- ✓ Assists in our membership drive by communicating to your staff what crew care is and what it does
- ✓ Sponsor a run of co-branded t-shirts
- ✓ Provide a scholarship opportunity in your company
- ✓ Running a membership drive in your company where you cover the cost of membership for your staff
- ✓ Provide venue/equipment/staff for one of our CrewCare Social events
- ✓ Direct financial Donation
- ✓ For Promoters – donate tickets to sort after events for fundraising or an employee recognition program
- ✓ ANYTHING ELSE YOU CAN DO THAT WILL HELP THE WELFARE OF CREW IN OUR INDUSTRY
- ✓ Purchase memberships for your staff
